ANZ ranked =No.1 for Overall Relationship Quality in Greenwich Associates Large Corporate Banking study

ANZ today announced it has for the first time ever achieved the =No.1 ranking for Overall Relationship Quality across Asia in the latest Greenwich Associates Large Corporate Banking study, a leading independent survey of 681 of the biggest companies in Asia with turnover of more than US\$500 million.

ANZ maintained its ranking for Top 4 Corporate Bank in Asia, a position it has held for the fourth consecutive year, whilst moving from the No.3 to No.1 position in terms of Relationship Manager (RM) quality.

ANZ Group Executive Institutional Mark Whelan said: "This result shows our hard work is paying off as we focus on improving the depth and quality of our customer relationships.

"While we're pleased by the acknowledgement, we're committed to continuing to improve how we connect our Institutional clients across Asia with opportunities in the region," said Mr Whelan.

Across the geographies, ANZ ranked No.1 or =No.1 for overall relationship quality in key markets including Singapore, China, Taiwan and Indonesia.

ANZ Group Executive International Farhan Faruqui said: "We're proud of how far we've come in a very short period of time and even more proud that our customers have voted to acknowledge the quality of our banking relationships."
